STEVE IVY RARE COINS

Dear Customer:

Genuine opportunities in the numismatic market occur relatively infrequently. A review of cyclical activity over the past twenty years indicates such occasions arise only a few times per decade. It is my sincere conviction that the next several months offer an opportunity of the highest order to acquire choice, rare, U.S. coins at levels now recognized throughout the industry as extremely favorable. My belief stems from three measures, which over time, have been reliable and proven indicators of the rare coin market.

The first, and easiest to correlate is the link between precious metals prices and rare coins. Bullion has behaved as a leading indicator since August, 1971 when the dollar was officially devalued, and a comparison between the two reveals a three to six month lag in rare coin prices to changes in bullion levels. Most analysts believe that the metals market entered a long term "Bull" phase during the summer of 1982, and substantial gains are forecasted through 1986. So far, the scenario is unfolding nicely, with gold up over \$200 from its cyclical low, and silver up by an even greater percentage.

The second major factor to consider is the broader impact of economic rates on the allocation of investment dollars. The past year has witnessed a marked reduction in interest rates, which has loosened available funds for investments in areas other than the monthly markets. Further, while the inflation rate has temporarily cooled, dramatic increases in the money supply portend a return to higher levels in the foreseeable future.

The final factor which influences the market is the profile of the participants who are active. This closely parallels the long-wave cycle, whose early phases are characterized by strong collector interest, with progressively greater investor activity occurring throughout the cycle, ending in heavy speculative buying at the peak. The current make-up of the numismatic market is weighted heavily towards the experienced collector, indicative of price levels which are in equilibrium with the natural forces of supply and demand.

The only constant in the rare coin market is change. This current situation will not remain static for more than a few more months. Now is clearly the time to take advantage of bullish bullion markets, low interest rates and a natural dip in the long-wave coin cycle. If you have been observing the market for the past two years, I'm sure you'll agree that this is indeed a rare opportunity to either add pieces to your collection which may be unaffordable in a few years or diversify your tangibles portfolio with prudent numismatic purchases.

Sincerely,

Steve Ivy

STEVE IVY RARE COINS

Dear Customer:

It is with great pride that we welcome you to our latest presentation of Numismatic material and services available from Steve Ivy Rare Coins, now the largest dealer of rare U.S. coins in the world. Throughout the month of January our buyers attended several major conventions, purchased a major private collection, and traveled extensively throughout Europe to bring you the selections in this catalog. In terms of variety, depth, and quality this is the finest inventory of rare U.S. coins for sale anywhere in the world today. Add to this, our recently expanded staff of knowledgeable numismatic professionals and our negotiated pricing policy, and you have before you an occasion to take advantage of the best values available in numismatics, at a time, which in retrospect will prove itself to have been a great opportunity to procure rare coins.

Several special new programs merit your attention this month; among them our Monthly Investment and Numismatic Training, or M.I.N.T. Plan, through which you can acquire both numismatic knowledge and selected U.S. coins via a convenient monthly payment plan. Also unveiled this month, is our Assured Delivery Program, whereby your numismatic wants are met with a delivery of coins, not with a returned check or a disappointing letter. We're certain you'll appreciate the priority attention and prompt service orders through this program will receive.

We encourage you to carefully review our extensive offerings of specials this month, including several groups of high quality gold coins which we've recently purchased in Europe. Finally, among our individual listings are many choice pieces from the collection of Dr. Arthur Bloomfield. Specializing in early gold and silver type, and seated material, Dr. Bloomfield's holdings have not appeared on the market in years and this offering presents an outstanding opportunity to acquire these choice and desirable coins.

We hope you enjoy looking through this catalog, and learning more about the varied and extensive services now offered by the world's largest dealer of high quality U.S. coins. If you have any questions, please do not hesitate to call us toll free at 1-800-527-9250.

Sincerely,

Michael W. Sherman

SUSIE BREWER, Inventory Control

"Chances are very good that when you call we have the one coin you are looking for."

We probably have the coin you want now: World's Largest Selection.

In earlier days, one of the prime responsibilities of the rare coin dealer was to maintain a large, varied selection of coins for his customers.

But today, with rare coin prices rising, keeping many quality coins in stock requires more capital than most dealers have. As the world's largest coin firm, we've got the capital, financial strength, and worldwide buying offices in Dallas, Dusseldorf and Paris.

That simply means we can acquire and sustain a larger inventory of more sought-after coins than anyone else.

And because we have constant contact with sellers of rare coins, we're always replenishing our inventory.

This all adds up to the greatest possible service to you, the collector — to have the special coins you want when you want them. And they're probably in our inventory now, awaiting your call.

CHARLES CLIFFORD, Professional Numismatist

"Since I spend the whole day working with my customers, I make sure they get the best coin value."

Purchase better coins with the best advice: Professional Numismatists.

To make the best coin purchasing decisions today, the collector needs the best numismatic advice he can get. When you call us that means a professional numismatist who has a lifetime of coin experience.

Our numismatists work with you repeatedly, developing a relationship and building a trust. They are friendly and genuinely care about you and your

collection. They love coins as much as you do.

And we have more of these on-staff than any other company.

The first part of the American rare coin tradition is confidential, personal service. Our people are building on that heritage — helping you get a better coin value every time you buy.

MIKE SHERMAN, General Manager

"I make sure your coins are sent within 24 hours of your order."

Get your coins fast: 24-Hour Delivery.

In today's market, coins change quickly. That's why, when you place an order with us, you want the coin in your hands as quickly as possible.

Our goal is to have your coin in the mail to you within 24 hours after your

order is received by mail (or only 12 hours if you call in your order).

Fast, personal service is a big reason our customers stay with us — and it's what we pledge to keep you coming back.

BOB VITT, Professional Numismatist

"I love to talk coins...to search for the coin with the right strike and appearance, at the right price to fit my customer's needs."

Negotiate your best price every time: The Art of Negotiation.

One of the finest traditions of coin buying is the "art of negotiation." And we're building on that heritage.

Our coin listings that you see in our advertising or in our catalogs reflect the offering price for the quality of each coin. As a value-conscious coin buyer in today's market, you have the opportunity to discuss the price and quality of each coin with one of our professional numismatists.

Through the art of negotiation, together we will determine the current value of each coin or group of coins you need. You can be confident that once we begin discussing a coin that fits your needs we'll do everything possibly to place that coin in your collection.

After all, our mutual goal is value — to help you build your collection with the finest quality at the best price to you.

Let's negotiate on the coins you want.

GARY CARLSON, Professional Numismatist

"When our buyers return from coin shows, my top priority is sorting through the newest purchases, finding coins for my want list customers."

Tap our thousands of sources with one call: Want Lists.

How many times have you searched months or even years for just the right coin for your collection? Now you can get that coin with just one call to us.

Our Want List Service staff constantly searches for coins that our customers need. As the largest coin firm in the world, we probably have more sources and contacts than any competitive firm. Often, that can mean finding the coins

you want at your price faster than you ever thought possible before.

You may have tried giving your want lists to other dealers and have been disappointed. Give us a try. We know that our full-time Want List Service staff will do their best to please you.

After all, if the largest coin firm can't find your coins, who can?

DOUG WINTER, Numismatic Research Director

"Discovery of a little known fact can often make the difference in choosing the right coin."

Use the past to guide you today: Numismatic Research & Information.

When you're considering the purchase of a very important and valuable coin, you might like to know something of its history. Such facts as: causes of its rarity, who has owned it before, how much as it sold for in the past, and more.

To make such information available to you, Steve Ivy Rare Coins has established a division of research, built a private coin library, and maintains constant access to

the American Numismatic Association Library.

When you contact us about a significant coin, and you want to know more about its background to help you make a better buy, you can be confident our research staff will respond.

Just another reason why you can depend on Steve Ivy as your top coin and information source.

We know how important it is to see any coin before you say "yes" and add it to your collection.

That's why we are pleased to offer

you, our valued customer, ten-day approval service. If, after examining any coin within ten days, you are not completely satisfied for *any* reason, simply return the coin.

So many of our customers get such great deals...the bargains are sometimes hard to believe.

Periodically, we give you a special opportunity to literally "bid" on a large selection of coins from our regular inventory through our Mail Bid Sales.

No one but Steve Ivy Rare Coins.

12

Buy now, pay later, no interest: The Layaways.

It always seems to happen like this: you see a coin you want and it's a "steal" at that price. But your money is tied up in other coins or investments at the amount. You know that quality coin is not going to last long at that price.

What could be easier, quicker, or a better way to be assured of reserving the

coins you want. Buy now, pay later, no interest.

We provide two ways to put your coins aside today with our layaway plans. Choose the Three Month Plan, or for smaller monthly payments, select the Six Month Plan (\$2,000 minimum purchase). Either way, you have *no interest charges*.

13

Your overseas coin connection brings you the unique: Ivy European Offices.

Coins have been collected in Europe for centuries. And most of these collections have been passed down generation-to-generation. Only on rare occasions are a few of these collections for sale. Now you have a chance to buy such coins with the help of our Ivy offices in Europe.

Both buying offices in Paris and Dusseldorf have established an excellent reputation with dealers and collectors throughout Europe. This means we are the first to know when collections are for sale, and the first to buy.

Steve Ivy Rare Coins is the only coin firm to unlock these European treasures and present them to you.

Two decades of service means better service to you today: The Steve Ivy Heritage.

Rare coin collecting is a timeless tradition. The concerns of the collector have changed little since the first U.S. coins were struck at the Philadelphia Mint in 1793. The private collector has always turned to the professional numismatist. Like Steve Ivy.

The legacy of Steve Ivy Rare Coins is that of a rare coin enthusiast and collec-

tor like yourself. Through over twenty years of experience, his numismatic skills have grown and developed to the point where he is recognized as one of the leaders in numismatics.

Steve Ivy, and the coin firm he founded, are dedicated to building on our numismatic heritage by continually striving to find better ways to service today's collector. How vigorous the growth in rare coins?

by Mike Sherman

★ ★ ★ ★ ★ ★ ★

Attempts to analyze the current state of, and prognosticate the future direction of the rare coin market often leave the individual attempting such endeavors feeling like a blindfolded rider on a roller coaster. He really doesn't know where, or when the peaks and valleys are coming, but he can certainly tell when they've just passed. If one's sense of inertia can remain intact after a twenty six month fall, the bottom of the market was finally seen last July. No fanfare, no headlines and as is the case with market bottoms, no "buying panic." For some reason, bull markets like to crash, and attract everyone's attention. Bear markets prefer to laboriously arise, disturbing practically no one. Nevertheless, by late August, everyone who had been on the ride knew they had recently changed direction.

Perhaps it was gold bullion, which briefly stuck its toe in the icy waters under \$300 and then ran. Perhaps it was the interest rates, which after nearly squeezing the life out of the economy, began to relax their grip and head south. Or maybe it was the enigmatic stock market, which chose the third week of August to begin its most explosive rally in history. For whatever the reason, the effect of these developments on the August 1982 ANA in Boston was vigorously curative. Sales for nearly all dealers exceeded pre-show expectations. Auction prices showed unexpected strength in many areas, and proved that the numismatic community could indeed raise the over ten million dollars necessary to buy out the major sales that week, at, or above the estimates.

And from this most closely watched and widely attended show of the year, came the analysts. Their September newsletters spoke of watersheds turning points and bottoms. The optimism was infectious, and several private investors began to pump large sums of money into the market in across-the-board type coin purchases. The resulting scarcity of choice coins produced the first rash of plus signs in the Coin Dealer Newsletter in nearly two years, fueling the growing belief that the market had bottomed.

The last week in October played host to the sale of The United States Gold Coin Collection, an event which received national coverage. Total prices realized were an incredible 12.5 million, shattering price records for both an individual, regular issue U.S. coin and for a single coin auction as well. Although a great many items in the sale were extreme rarities, the more common "type" coins registered very strong prices.

By November, the weekly Numismatic Journals were reporting brisk activity at levels up to 20% over those of July. The third National Silver Dollar Convention in Houston was an unqualified success with most dealers reporting "good sales at good prices." An increased amount of collector oriented bidding was evident on teletype circuits during the month, resulting in advances for type coins, dollars and commemoratives, in four consecutive weeks.

The New Year was ushered in by the now traditional five-day F.U.N. Show, in Orlando. The activity level was reminiscent of the pace set three years earlier, although prices were at somewhat more comfortable levels. Both the Krueger and the N.I.O.F. auctions played witness to the strong and solidly based collector demand now in evidence throughout nearly all areas of the market. In conjunction with bullion's 15% upward surge during January, these two sales were a clear indication that the Rare Coin market has entered a new phase.

The recovery is now underway. Its duration, intensity and speed will be felt by the participants as it rolls along. Like our blindfolded rider, we do not know when or where the top will be, but the ride there should prove profitable and rewarding to all the passengers.

The European Gold Connection of Steve Ivy Rare Coins

An old saying holds that the streets of Zurich are paved with gold. This is, of course, an exaggeration. However, a number of United States gold coins have found their way to Switzerland and other parts of Europe. Steve Ivy Rare Coins is actively involved in the exporting of the finest U.S. gold coins from Europe.

Steve Ivy Rare Coins currently maintains offices in Dusseldorf and Paris. Heading the overseas operations is Marc Emory. Marc is one of the most knowledgeable numismatists in the world. Additionally, he is fluent in seven languages; an obvious aid in successfully negotiating with his various contacts.

The tradition of gold is ingrained in Europe. The average European has a confidence in gold which is far more encompassing than his American counterpart. The United States was often requested to make its European payments in gold. European banks imported United States gold coins as did, to a lesser extent, wealthy European families and individuals. Thus, the sources of American gold coins in Europe are diverse.

Marc Emory's myriad European contacts allow him to get first crack at these sources. Marc is constantly travelling across the Continent in search of the choicest coins. Having resided full-time in Europe for nearly a decade, Marc is a well-known figure in European numismatic and banking circles.

A recent example serves as a graphic illustration of Marc's considerable expertise. In the Spring of 1982, Marc received a phone call from a solicitor representing the estate of an old German family. Marc was able to purchase a three coin 1839 Gold Proof Set. This set was the most important numismatic discovery of 1982 and it has since become the centerpiece of a prominent American

gold coin collection.

Steve Ivy Rare Coins is not the only American firm to import gold coins from Europe. Steve Ivy Rare Coins is the only firm, however, with Marc Emory.

Marc's status in Europe means that Steve Ivy Rare Coins' customers will choose from the absolute cream of the crop. And Marc's expertise insures that only the highest quality American gold coins will be purchased by Steve Ivy Rare Coins.

Reverse: E in ONE is just about closed; highest leaves are level with ONE, lower leaves with bases of CENT; die file mark from bottom serif of E in CENT to upper left serif on N. If your Proof does not possess these characteristics, then it is highly suspect. . . 2,550.00

EARLY HALF DIMES

1797 EF (45) Valentine-2. 15 Stars. Natural golden-grey with the obverse showing more color than the reverse. Diagnostic striking weakness at the centers; otherwise very well struck and quite choice for the grade. (see color photo)	2,950.00
1797 AU (55) V-4. 16 Stars. Obverse break at star 8; heavy obverse clashmarks in the right field. Superb sea-green and blue obverse toning atop a semi-prooflike surface; burnt-gold and green reverse. Unusually clean for the date and variety. Quite a rare variety and an even rarer subvariety; possibly a strong high R-5. (see color photo)	4,250.00
1803 AU (50) V-1. Large Date. Untoned with quite a bit of luster present. Struck on the usual inferior planchet with a tiny obverse clip at 4:00. Somewhat weak at the left obverse/reverse but quite sharp at the right portion of the coin. This is a very scarce date; unknown in Mint State.	2,950.00

BUST HALF DIMES

1829 MS (63) V-6. Medium Date, Large 5C. Rose-grey with a peripheral ring of sunset-gold toning on the obverse. Well struck for the variety; all of the stars show full radials.	875.00
1830 MS (67) Superb! Unlisted die state; "V-7b." Struck from lightly clashed dies; obverse break from rim to star one to breast. Delicate gold toning atop extremely choice surfaces. Especially sharp with a high obverse rim, fully defined hair and bold star radials. Important as both a new subvariety and a type coin, this piece represents one of the most exciting coins in this offering. (see color photo)	3,950.00
1831 MS (67) V-5. Natural rose-grey with autumn-leaves pastels below. Very sharply struck with the reverse especially bold. (see color photo)	3,950.00

LIBERTY SEATED HALF DIMES

Steve Ivy Rare Coins is proud to offer our finest selection of Seated Half Dimes since the 1982 ANA Sale. Included are a number of the finest known specimens, unlisted varieties and superb type coins.

- 1837 MS (63) V-1. No Stars. Steel grey obverse; golden-green reverse. 950.00
- 1837 MS (67) V-5. No Stars. Superb! Magnificent burnt-gold, sea-green and blue pastels atop amazing satin surfaces. Fully struck. A tremendous type coin. 3,950.00
- 1838 MS (63) We currently have two examples in stock. One is brilliant while the other is lilac and orange toned. Each is available at. 725.00
- 1838 MS (63) V-2. Small Stars. Struck from heavily clashed dies. Frosty, sharp and quite scarce. 895.00
- 1838 MS (67) V-3. Partial Drapery. Superb! Golden centers framed by sedate rainbow crescents. Basically well struck with the head and stars up. This variety, which is the result of die clashing from the reverse, should be listed in the Redbook; possibly even collected as a distinct type coin. 2,250.00
- 1840 MS (63) V-5. No Drapery. Deep gold toning. Exceptional for the grade and a full "65" by most standards. 725.00
- 1842 MS (67) Superb! V-2. Brilliant and exceptionally frosty. Light reverse clashmarks are the only disturbances on the virginal surfaces. A virtual full strike with a three-quarter head; this date is very scarce as such. (see color photo) 4,250.00
- 1843 MS (65) V-6. Strongly repunched date. Prooflike with scattered areas of frost. Light golden toning covers very clean, undisturbed surfaces. An excellent strike with a full head and wreath. An extremely rare variety in Mint State. To the best of our knowledge, this is the finest known. An important coin. (see color photo) 2,050.00
- 1844 MS (69) V-3. Partly triple date. Wonder Coin! Rose-gold obverse with hidden pastel flashes; similar reverse but with more obvious pastels present. An unbelievable strike for the date and type. Your cataloger, long a specialist in this series, has seen few (if any) Stars Obverse Half Dimes of this caliber. (see color photo) 3,950.00
- 1845 1/3 MS (65) V-5. Prooflike. Full strike, untuned. Is it an overdate or isn't it? We have never been able to truly determine the status of this variety. We have, however, been able to gauge the rarity of this variety. This particular piece is possibly the finest known. (see color photo) 1,950.00
- 1848 MS (65) V-1. Large Date; dime logotype of 1848. Semiprooflike obverse deeply toned in rose, blue and green hues; deeper rose-gold reverse. Sharp obverse, weak reverse with the top of the wreath rather flat. This and the next would make an interesting die state pair. 2,050.00
- 1848 MS (65) V-1B. Terminal reverse state with extensive cracks; cf. 1982 ANA: 1798. Russet and pewter atop fully lustrous surfaces. Not the greatest of strikes but this is attributable to the state of the dies. Once an R-7 in Mint State but the appearance of a small hoard now makes this a high R-5. Still, scarce and quite attractive. 1,950.00
- 1848 MS (65) "V-5a." Smaller date; heavy reverse lettering. Latest reverse state with the crack now bisecting the coin. A near twin to the 1842, this, too, is very frosty and sharp. An important and underrated variety; as a subvariety this particular coin is of great interest to the specialist. 1,950.00
- 1849 1/6 MS (67) Superb! Unlisted in Valentine. "V-2a." This variety is thought to have been struck from an 1846 die. Part of a loop and an incomplete stroke are present only with the 9. The reverse is shattered with numerous breaks. The only other offering of this variety was Dr. Black: 258. This is easily the finest known. The strike is fabulous, the surfaces are pristine. An important coin. 2,400.00
- 1850 MS (65/65) ANACS certified. An exceptional strike for this underrated date. 2,200.00
- 1852 MS (67) V-1. Superb! Rose-gold at the centers; peacock-blue splashes at the peripheries. Sharply struck with an obverse wire-rim and a virtually full head. A very underrated date in Mint State; many melted in 1853. (see color photo) 2,250.00
- 1853 MS (60) With Arrows. 225.00
- 1853 MS (63) With Arrows. A bit weak at the centers; otherwise choice and pleasing. 675.00
- 1853 MS (65) With Arrows. Glittering golden surfaces show virtually no marks. Well struck and, overall, far nicer than usual for the date. A premium type coin. (see color photo) 2,000.00

- 1855 MS (65) With Arrows. V-4; very late reverse state with the break extremely obvious. Struck from heavily clashed dies. Lustrous and lightly toned. 2,000.00
- 1855-O MS (69) With Arrows. Valentine 1-A. Wonder Coin! Struck from lightly clashed and very rusty dies. Obverse crack as described. Super-frosty obverse with contrasting die rust on the figure; lovely satiny reverse. The beauty of this coin is difficult to describe by mere words. Very rare. 5,250.00
- 1856 MS (65) V-7a. Unlisted reverse clashmarks and a crack between I and C in AMERICA. Typical strange strike for the date but pleasing gold toning and strong luster make this a premium coin. 1,600.00
- 1859 Proof (63) V-1. Deep cobalt with flashy iridescence below. Fully brilliant; a few light hairlines are ably masked by the toning. Scarce. 1,450.00
- 1860 MS (65) Rose-grey centers framed by iridescent peripheries. Original and attractive. 1,600.00
- 1860 MS (65) "V-4." Obviously repunched 1 and 0 in date. Splendid obverse toning; untuned reverse. A very rare variety; unlisted in Valentine. (see color photo) 1,850.00

- 1861 MS (60) V-2. Attractive even gold toning. 225.00

- 1862 MS (63) Semiprooflike; full strike. (see color photo) 475.00
- 1862 MS (65) V-5. Natural deep gold toning atop clean, lustrous surfaces. 1,600.00
- 1862 Proof (65) 1,925.00
- 1865-S MS (63) Unlisted subvariety. "V-1a." Strongly repunched date. Heavy reverse break from 10:00 rim into ME. Obverse and reverse clashing. Attractive gold toning atop basically choice surfaces. This is a rare date in Mint State; much more so than its more celebrated Philadelphia counterpart. 1,600.00
- 1867 Proof (67) Superb! V-2. Brilliant centers surrounded by unimaginably vivid lilac, electric blue and auburn toning. 2,400.00
- 1868 Proof (65) V-1. Deep grey centers with medium pastel peripheries. 1,925.00
- 1868 Proof (67) Superb! V-1. Smoky golden-grey toning atop exceedingly brilliant surfaces. For some reason, Gem examples of this particular date are non-existent. This shatters siad precept. (see color photo) 2,400.00
- 1869 MS (67) V-1. Superb! A later strike from the Proof dies of the year. Splendid rose-grey, green and peacock-blue splashes. 1,975.00
- 1869 Proof (65) V-2. One of the first Proofs struck from this die as evidenced by the still-strongly repunched date and stray engraver's lines in the fields. Lavender and orange obverse; green and lavender reverse. Attractive and scarce. 1,950.00
- 1870 Proof (65) Brilliant, hairline-free and attractive. 1,950.00
- 1871 MS (65) Frosty and sharp. An ideal type coin on account of its overall eye appeal. 1,550.00
- 1871 Proof (65) Lavender and gold obverse; similar reverse in a different configuration. 1,950.00
- 1872 MS (65) We can currently offer a brilliant or splendidly toned example. Each is priced at. 1,600.00

- 1872-S MS (69) Wonder Coin! Mintmark above bow. Lovely russet, sea-green and gold obverse; burnt-gold reverse framed by lilac and electric blue. One tiny obverse lintmark above the second A in AMERICA; otherwise a virtually perfect coin. (see color photo) 3,325.00
- 1873 MS (63) 475.00
- 1873 Proof (67) Superb! Fully brilliant with splashes of iridescence. 2,400.00

BUST DIMES

1807 VF (35) Typical strike for the date with myriad obverse clashmarks and weakness at the left obverse and reverse. The centers are sharp with the shield and Ms. Liberty's hairstrands distinct.	975.00
1807 AU (55) Natural steel grey toning. Above average strike with the left obverse and reverse relatively bold. Fewer clashmarks than usual make this an unusually attractive example of this usually ugly date.	3,450.00
1807 MS (63) Deep rose-to-lilac obverse with burnt-orange devices; even gold reverse. Decidedly above-average strike with the reverse especially bold. An outstanding type coin for the advanced set. (see color photo)	8,100.00
1814 MS (65) Large Date. Breen 3-C; no period. Very late reverse die state with a number of dramatic cracks intersecting within the shield. Antique gold toning is illuminated by this coin's extraordinary luster. The strike is sharp save for the right wingtip. Although this is not an especially scarce date or variety in grades up to Choice AU, true Mint State examples are quite scarce. (see color photo)	6,850.00

Magnificent 1814 Bust Dime

1814 MS (65) Breen 3-D. The rare and curious STATES OFAMERICA variety. (R-5). Very early die state with 8 and parts of the legend showing marked doubling. Delicate satin surfaces show only the lightest marks. Diagnostic striking weakness at the forecurls and the base of the shield does not detract. Aesthetically, this is as pleasing an Early Dime as we have ever sold. In addition, this is a very rare variety with no more than three or four fully Mint State pieces known to us. See the March 1977 issue of *The Numismatist* for more information on this variety. (see color photo) 8,250.00

1821 AU (50) Large Date. Breen 1-A. Late die state with the obverse bulge opposite stars two and three. Deep purplish-grey; no luster but very slight wear.	650.00
1831 AU (55) Breen 3-D. Natural pastel splashes. A most attractive coin which presents the type collector on a budget an alternative to an expensive BU coin.	395.00
1833 MS (65) Breen 2-B. Second 3 high. Fully struck and very lustrous with a touch of obverse toning present. The overall cleanliness of this coin makes it ideal for a type set. (see color photo) 4,975.00

1892 MS (69) Wonder Coin! Struck from lightly clashed dies. These clashmarks are, in fact, the only marks on the entire coin. The centers are brilliant while the peripheries are strongly toned a burnt-gold. A common coin in an uncommon grade. (see color photo) 1,875.00	
1892-O MS (65) Sharply struck with pleasing original surfaces. 1,075.00

TWENTY CENT PIECES

1875 MS (65) Natural toning. Scarce.	4,750.00
1875-S MS (65) Delicate russet toning atop choice satin surfaces. Some light clashing in the right obverse field; otherwise very clean. An excellent type coin.	4,325.00
1875-S MS (67) Superb! An unusually flashy coin with full wire rims and one of the best strikes we've seen on a 20 Cent piece.	5,400.00
1875-CC MS (65) Lightly toned obverse; darker reverse. Very sharply struck with no apparent weakness on the Eagle. Extremely bold luster and choice surfaces. Really a nice example of this scarce coin.	5,200.00
1877 Proof (65) We currently have two(!) examples of this scarcity in stock. One displays magnificent iridescent toning while the other is wholly brilliant. It may be some time before another is offered; we can sell either coin for.	8,600.00
1878 Proof (67) Superb! Dramatic iridescent toning. In great demand on account of its Proof-only status and trivial mintage figure. This is a very difficult coin to find in its original state; too many have been vigorously scrubbed. We can not recall seeing a finer example of this date.	9,750.00

BUST QUARTERS

1806 MS (63) Browning-2. Unlisted die state; similar to Breen's State IV but numerous reverse rim breaks. New crack from 2 in value into left shield. Natural rose-gold and orange with fairly clean surfaces. Quite weak in the centers but this is due to the extensively cracked dies; not wear. A scarce coin in Mint State and a rare variety; this compares to J.A. Stack: 6 as the finest late state 1806 B-2 available. (see color photo)	11,500.00
1831 EF (40) B-5.	250.00
1832 EF (40) B-2. Nice.	250.00
1834 MS (65) B-4. Heavy obverse cracks as described by Browning; clashmarks from reverse below Ms. Liberty's ear. Delicate pastels adhere to unusually clean surfaces. Sharp obverse; a trifle weak at the eagle's lower left wing. A lovely coin.	6,500.00

LIBERTY SEATED QUARTERS

1858-O MS (65) Brilliant and fully struck. The 1855-1860 New Orleans Quarters are amongst the most underrated of all U.S. silver coins. In Gem Mint State, the 1858-O is quite rare; far more so than, say, an 1880'S business strike. An important opportunity for the specialist. (see color photo)	2,750.00
1859 Proof (69) Wonder Coin! Lavender, sea-green and burnt-gold obverse; sedate lilac-grey reverse with lively flashes below. Obverse and reverse wire rims. The surfaces and color of this coin are amazing. (see color photo)	4,450.00
1860 MS (67) Superb! A satin-surfaced Gem which displays very delicate russet-gold toning atop its remarkable surfaces. (see color photo)	2,750.00
1871 Proof (65) Lilac and gold. Unhairlined, original and very nearly superb.	1,950.00
1872 Proof (65)	2,000.00
1876 MS (65) Honey-gold and brown toning atop unblemished satin surfaces. (see color photo)	1,850.00
1877-S MS (67) Superb! Natural rose-gold surfaces radiate luster. An obvious — and excellent — type coin.	2,350.00
1877-CC MS (67) Superb! Rose pastel toning atop immaculate fields. An incredible strike for the date: full stars, head and toe. Certainly one of the top Carson City Quarters known — if not the finest.	3,250.00
1878 MS (65) Deep and attractive pastel-gold toning.	1,850.00
1883 Proof (67) Superb! Unusual and intriguing toning. The obverse is rose-grey with lilac flashes below; the reverse is a delightful blend of lilac and gold. The virginal surfaces serve to further enhance the desirability of this artistically-toned Seated Quarter.	2,500.00
1887 MS (65/65) ANACS certified. Scarce.	2,275.00
1888-S MS (63)	575.00

1891 MS (65) Sedate rose-grey obverse with illuminating pastels below; similar but slightly less lustrous reverse. This sharp, clean Quarter would make a very fine type coin.	1,850.00

BUST HALF DOLLARS

1807 AU (55) Heraldic. Overton-101. (R-6). Lustrous with lilac and gold toning. Diagnostic weak obverse center; fairly sharp reverse. This is a very scarce variety.	1,125.00
1807 MS (60) Heraldic. Overton 105. (R-2). Fully lustrous with a basically untuned obverse and a burnt-gold reverse. A bit weak at the curls above Ms. Liberty but this is diagnostic to O-105. In fact, this coin appears fully equal to the Overton Plate coin. Although this common variety is scarce in Mint State, we have priced this as a type coin. (see color photo)	4,450.00
1823 MS (63) "Ugly 3." O-110a. (R-4). Natural burnt-gold pastels highlighted by flashes of luster. A scarce variety which is popular due to its inclusion in the Redbook.	950.00
1824 MS (60) O-115. (R-1). Ancient deep gold pastels adhere to choice surfaces. Well struck and quite pleasing for the grade.	475.00
1829 EF (45) O-112. (R-1). Original and quite exceptional for the grade.	110.00
1830 EF (45) O-122. (R-1). Large 0's.	110.00
1830 MS (63) O-123. (R-1). Large 0's. Frosty, sharply struck and unscrubbed. For the money, this attractive Bust Half is an unbeatable value.	950.00
1830 MS (65) O-120. (R-1). Large 0's. A frosty gold-toned piece which is remarkably well struck and clean.	3,950.00
1831 MS (67) O-109. (R-1). Superb! A lustrous Gem which is remarkable for its originality. The surfaces are an even rose gold with vibrant pastel splashes on the obverse. The cheek shows no rub and the strike is excellent. This is one of the nicer Bust Halves we've handled in some time. (see color photo)	4,950.00
1834 EF (45) Small Date. Small Letters. Original and pleasing.	100.00
1836 MS (65) O-112. (R-1). "Bar-dot" variety. Lilac and orange obverse; similar but far less intense reverse. A bit weak on the scroll; otherwise extremely sharp, lustrous and original.	3,950.00
1837 MS (63) Reeded Edge. Repunched 7. Untoned and exceedingly lustrous. A few isolated marks consistent to the grade. Sharply struck. This is an unlisted variety which raises an interesting point. The coin is littered with die cracks so we can assume it is from a worn die. Thus, many of this variety must have been struck. Why has it gone unnoticed until now? Does anyone care? A fascinating coin. (see color photo)	1,500.00
1838 MS (65) A full strike(!) with clean, lustrous surfaces. Advanced collectors know the difficulty of finding a Reeded Edge Half in this state of preservation. (see color photo)	5,400.00
1839-O MS (63) Struck from broken dies. Lustrous and brilliant. The peripheries are a bit flat but the centers are extremely sharp. A popular date/type coin which is not easy to locate in this grade.	4,250.00

LIBERTY SEATED HALF DOLLARS

1840 MS (60) Small Letters. Outstanding toning.	610.00
1851-O MS (60) No Drapery. Fully prooflike. Struck from lapped dies which effaced 95% of the drapery and much of the area about Ms. Liberty's foot. Golden toned. A legitimately scarce date in Mint State and the first of this variety we've seen.	550.00
1853 MS (65) Arrows and Rays. Full strike. Light golden toning. Possibly a bit nicer than the Gem which we sold (quickly) from our December, 1982 catalog. An outstanding example of one of the most popular type coins. (see color photo)	8,350.00
1854 MS (65) Arrows. Exquisite pastels atop clean satin surfaces. Sharply struck and visually stunning.	4,150.00
1854-O MS (60) Arrows. Prooflike and flashy.	750.00
1854-O MS (63) Deep gold pastels. Choice for the grade.	1,650.00

1855-O MS (65) Very deep golden-green pastels. Sharply struck. (see color photo)	4,250.00
1856-O EF (45)	95.00
1858 MS (65) A superior strike with the head and stars completely impressed.	2,950.00
1858-O MS (65) Full strike. While not as scarce as the 1858-O Quarter in our catalog, this is a somewhat better date in strict Gem Mint State. The two coins would make quite a display pair.	3,650.00
1859 Proof (65) Deep pastel toning atop fully brilliant surfaces. Uncleaned and scarce as such.	3,450.00

Scarce 1859-S Half

1859-S MS (67) Superb! No Drapery. Large S. Heavily frosted surfaces show no marks. Incredibly clean for the date; many were exported and either melted or bagmarked to death. Scarce. (see color photo)	4,950.00
1863 MS (65) Prooflike with scattered areas of bloom. Fully struck and quite clean, this coin possesses considerable appeal. It is, as well, quite a scarce date. (see color photo)	4,350.00
1864 MS (65) Lovely golden-green pastels. Fully struck and lustrous. Like the last coin, this is a very scarce date in an especially nice state of preservation.	3,600.00
1866 Proof (67) Superb! Pale rose with auburn and sea-green obverse flashes; similar reverse but in a different configuration. This date is extremely hard to find uncleaned. (see color photo)	3,450.00
1871 Proof (65) Brilliant with light golden toning on the obverse.	2,650.00
1874 Proof (65) With Arrows. Appearance-wise, this is close to the 1866 Proof. However, the undercolors here are lilac and gold. A very popular type coin. (see color photo)	4,750.00
1875 MS (63) Prooflike obverse. Intense electric blue flashes at the peripheries; russet-gold centers.	850.00
1875-CC MS (67) Superb! Deep flecked-gold pastels atop exceedingly choice surfaces. Fully struck with the reverse particularly bold. While not as desirable as the 1870-1874 Carson City run, this date is very scarce in Mint State.	3,350.00
1876 MS (65) Prooflike with deep rose-gold and green swirls. A delightful original coin. (see color photo)	2,650.00
1877-S MS (63) Semiprooflike. Quite choice with pleasing golden-orange toning.	850.00
1877-S MS (65) Semiprooflike with light golden toning.	2,750.00
1877-CC MS (63) Fully prooflike. A few obverse hairlines; very choice reverse.	925.00
1878 AU (58)	115.00
1879 MS (63) Prooflike. Scarce.	925.00
1879 Proof (65) A full-blown Cameo gem. Identifiable by two toning streaks on the reverse. Very, very impressive. (see color photo)	2,750.00
1883 Proof (67) Superb!	3,350.00
1891 MS (65) Prooflike obverse; frosty reverse. Fully struck, clean and quite scarce. (see color photo)	2,650.00

BARBER HALVES

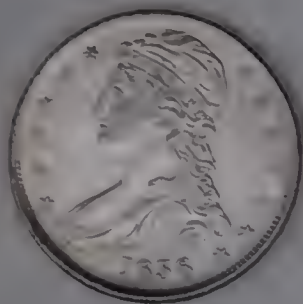

1892 MS (63)	900.00
1892 MS (67) Superb! A lovely example of this first-year-of-issue coin. Natural pastels adhere to clean, lustrous surfaces. Truly a desirable Barber Half Dollar. (see color photo)	3,250.00
1897-S MS (65) Dazzling satin surfaces with tasteful lilac-gold pastel toning. A sharp strike for the date with the only notable weakness at the area below the shield. A very scarce date in full Mint State. (see color photo)	4,500.00
1899 MS (67) Superb! Fully struck and beautifully toned.	3,250.00
1900 MS (67) Superb!	3,300.00
1900 Proof (63)	1,275.00
1900-S MS (67) Superb! Semiprooflike. Captivating burnt-gold, violet and apple-green obverse in an induplicable configuration; mostly untuned reverse with iridescence at the peripheries. A strong strike makes this the perfect type coin. (see color photo)	3,850.00
1907-D MS (60)	475.00
1909 Proof (67) Superb! Brilliant with a partial obverse cameo. The reverse displays nice lilac-gold hues while the obverse is mostly gold. Unhairlined and original in every respect.	3,900.00

BUST DOLLARS

1795 VF (35) Flowing Hair. Deep original toning. (see color photo)	2,750.00
1795 EF (45) Bolender-1. (R-3). Flowing Hair. Two leaves below wings. A perfect EF with warm grey patina atop undisturbed surfaces. Sharp for the type with strong centers and full denticles. No adjustment marks or rim dings. A most desirable Early Dollar.	4,500.00
1798 VF (35) B-13. Large Eagle. Ten Arrows. (R-1). Cleaned; now retoning nicely with iridescent splashes at the peripheries. This is fast becoming a splendid coin.	850.00
1798 AU (50) B-27. Close Date, High 8. Heraldic Eagle. (R-2). Medium grey with orange and lavender undertones. An unusually clean piece which suffers none of the usual impairments. Struck on a full, nicely centered flan with some luster still present. Strong centers show full hair and shield detail. An exquisite, original coin which would be difficult to duplicate at double the price. (see color photo)	2,950.00
1799 AU (58) B-21. (R-4). Wide Date, 13 Star Reverse. Extensive cracks as described by Bolender. Fully lustrous and extremely well struck. This coin saw very little circulation; only the very highest spots show discernible wear. With true Mint State Bust Dollars all but unavailable, the importance of this coin becomes all the more obvious. (see color photo)	2,750.00

LIBERTY SEATED DOLLARS

1841 MS (65) Natural rose-grey centers framed by golden-olive peripheries. Strong luster shows below the toning. The surfaces are quite choice and the strike is, for the date, sharp. Not an especially scarce date but this is a difficult type to find in an MS (65) grade. (see color photo)	5,250.00
1842 MS (67) Superb! Fully struck and lustrous with no toning present. Struck from lightly clashed and somewhat rusted dies. One of the more difficult dates in the 1840-1848 run and the finest No Motto Dollar we've seen in a considerable period of time. (see color photo)	5,950.00
1858 Proof (65) Fully brilliant with very light gold toning. A legendary rarity with, according to numismatic legend, only 80 specimens struck. Most of the survivors have been viciously cleaned. Although this coin has some very light friction-induced hairlines, it is original and uncleaned. An extremely rare and important coin.	12,500.00
1863 Proof (65) Gorgeous multi-hued toning features electric blue, purple and gold. A very popular date as a Proof due to its low mintage and the virtual unavailability of Mint State business strikes.	4,200.00
1866 MS (63) Unlisted. Recut 18; the flag of the 1 is obviously doubled. Prooflike but an obvious business strike on account of the high placement of the date and doubling on the motto. Attractive pastel toning adheres to basically choice surfaces. A very rare coin as a business strike.	3,750.00

1869 MS (65) Semiprooflike with ample areas of Mint bloom. Natural rose-gold and orange toning atop undisturbed surfaces. Very sharply struck save for the left corner of the shield. A very scarce date as a business strike and an outstanding mate to the 1866. (see color photo)	5,950.00
1871 MS (63) Second 1 in date sharply recut at its base. A pleasing, original coin which is a virtual clone to the 1866.	1,375.00
1872 MS (65) Prooflike. Striking violet centers framed by bright yellow-green peripheries. An attractive Seated Dollar. (see color photo)	4,750.00

TRADE DOLLARS

1874 MS (69) Wonder Coin! Lilac-pink surfaces with electric blue outlining certain parts of the devices. Simply alive with luster, this Trade Dollar is a stunning coin. The strike is equal to the color and surfaces. We haven't seen a nicer business strike Trade Dollar since the 1980 A.N.A. Sale. (see color photo)	7,750.00
1875-SMS (63)	1,025.00
1876-SMS (63) A "65" coin which is downgraded by a weak obverse strike.	1,050.00
1876-SMS (65) Deep rose-grey toning. Unusually clean surfaces and a good strike make this a splendid type coin.	3,175.00
1877-SMS (63) Sharp and choice for the grade.	1,050.00
1877-SMS (65) A blazer which is both fully struck and clean. Another outstanding type coin.	3,175.00
1878-SMS (63) Full strike. Light golden toning. A "65" coin which is downgraded by some minor abrasions.	1,025.00

PROOF MORGAN DOLLAR

1880 Proof (67) Superb! Extremely deep gold toning. High wire rim on the obverse. An original coin with no hairlines or cheek rub and very desirable as such. (see color photo)	4,500.00

ONE DOLLAR GOLD

1849-O MS (65) Breen-1. Fully prooflike deep yellow gold. An exceptional strike with all but the upper segment of the 84 in the date up. The planchet is equally exceptional with full denticles present. We have never handled an 1849-O Gold Dollar of this magnitude. (see color photo).	6,950.00
1851 MS (65) Lustrous green-gold. Noteworthy for its clean surfaces and very strong strike. (see color photo)	4,550.00
1851 MS (67) Superb! Deep greenish-yellow gold. Pristine, lustrous satin surfaces. Well struck and outstanding for type.	5,700.00
1851-C AU (50) Breen-2. Recut stars and mintmark. Unusual yellow-gold patina. Not much luster is present but there is wear visible only at the highest spots. Additionally, the coin is especially clean and attractive. An affordable Charlotte Gold Dollar. (see color photo)	1,550.00
1852 MS (63)	1,150.00
1853 MS (65) Pink gold. Strongly lustrous and sharply struck.	4,550.00
1853 MS (67) Superb! Yellow and copper toning. An amazing strike with the hair as sharp as a Proof. For the Gold type connoisseur.	5,650.00
1853-O MS (65) Breen-2. Bright yellow gold. Light die rusting on Ms. Liberty's face. The strike is more reminiscent of an 1853 Philadelphia gold dollar. Although greatly overrated in grades up to MS (63), this date is quite scarce in strict MS (65). (see color photo)	5,000.00
1855-C AU (50) Type Two. Perfect dies. Struck in deep yellow gold. Fully lustrous with semiprooflike tendencies on the reverse. Amazingly well struck for the date on a full, unimpaired planchet. Both the date and DOLLAR are full as is the milling. A very rare date, especially in this grade. Only two true Uncs. are known to us along with three (possibly four) AU's. Condition Census.	2,950.00
1856 MS (63) Upright 5. Frosty, well struck and choice for the grade.	1,350.00
1861 MS (65) Prooflike. Deep coppery toning atop undisturbed, vibrant surfaces. Unlike many Gold Dollars of this date, the strike and planchet are both full.	3,900.00
1862 MS (65) A frosty counterpart to the 1861. This is, as well, very clean and well struck.	3,900.00
1867 MS (63) Very scarce.	2,700.00
1868 MS (65) Semiprooflike with liberal areas of frost. The obverse is superb; the reverse displays a few inconsequential marks. Scarce. (see color photo)	5,850.00
1873 MS (60) Open 3. All of LIBERTY shows.	600.00
1876 MS (65) Breen-2. A blazer with very light pinkish-gold toning atop extremely choice surfaces. Partial wire-rims on both the obverse and reverse. A difficult date; one of the true business strike rarities of this series.	5,950.00
1883 MS (65) Lustrous greenish-yellow gold. A choice example of a better date. (see color photo)	3,900.00
1885 MS (65)	3,900.00

1889 MS (65)	3,900.00
1889 MS (65) Deep copper toning. Sharply struck with an obverse wire rim.	3,900.00
1889 MS (67) Superb! Lovely pinkish toning atop surfaces in full bloom.	4,850.00

QUARTER EAGLES

1802 /1 MS (60) Breen-1, Clapp-2. Prooflike, deep yellow gold. 3,035 struck. This is an attractive coin despite some ancient marks and a small crescent-like annealing flaw on the obverse between stars two and three. A bit weak at the centers but far above-average. A very rare date; the Garrett coin was only an EF and Eliasberg: 83 was an AU (55). (see color photo)	17,500.00
1832 AU (50) Expertly repaired on the obverse; so well repaired, in fact, that many of the dealers who have seen this coin couldn't determine where the work was done. Only 4,400 minted and most of these were melted in 1834. Rare and desirable in any state. (see color photo)	4,950.00
1834 MS (63) Classic Head. Semiprooflike deep yellow and green gold. Very sharp with the reverse especially bold. A very scarce type in choice Mint State.	3,600.00
1839-O MS (65) Striking deep yellow gold amplified by exceptional luster. Similar die state to the Akers plate coin with the reverse beginning to shatter. Quite rare in this grade but equally desirable to the type collector due to its remarkable eye appeal. (see color photo)	15,250.00
1845 MS (63) Breen-4. Obverse and reverse cracks as described. (R-5). A virtual full strike and legitimately scarce as such. Somewhat prooflike surfaces show minimal marks and are toned to a mustard yellow hue.	2,450.00
1846-D AU (55) Breen-1. Recut date and mintmark. Full luster adheres to the banana-yellow surfaces. Some light marks are present on the obverse but none detract. What little wear this coin received was very even; mostly on the forecurl and hairbun. A scarce date which becomes very rare at this level.	1,950.00
1847-D MS (60) Breen-2. Possible overdate (1847/46). The apparent repunching to the left of the 7 does not physically match the 7. This leads us to believe that the underpunch may have been a 6. However, even under intense magnification the underpunch is not clean enough to claim with certainty that this is an overdate. The coin itself possesses exquisite deep yellow toning atop problem-free surfaces. Rare in this grade; even more desirable on account of the variety. (see color photo)	3,450.00
1847-C MS (63) Breen-1. Diagnostic rusted reverse. Yellowish-green gold with considerable luster adhering to the reasonably choice surfaces. This date is a low R-4 in any grade; in strict Mint State the date is a low R-7. (see color photo)	4,600.00
1851 MS (63) Breen-1. (R-7). High date, crack through stars six and seven. Deep yellow-green gold with strong luster. An extremely rare variety; Windsor: 293 is the only other offering in years.	950.00
1894 Proof (65) Breen-1. 122 struck. Fully brilliant with only minor clouding. A small reverse scratch is present at 5:00 but can only be discerned when the coin is tilted at an angle. (see color photo)	4,950.00
1896 MS (63) Scarce.	795.00
1897 MS (63) Very deep copper toning. Scarce.	795.00
1898 MS (65) Pinkish centers; green-gold peripheries. Well struck and choice; even for this date.	1,850.00
1902 Proof (67) Superb! Breen-2. 193 minted. Very deep yellow toning with aqua and lilac hints atop its ultra brilliant surfaces. Absolutely free of the usual hairlines, spots and/or cloudiness. A stunning piece of Proof Gold.	7,750.00
1904 Proof (65) 170 struck but some melted after issuance. Fully brilliant and unhairlined. The reverse is absolutely exquisite with more vibrancy than any Proof Quarter Eagle we've sold this year. (see color photo)	6,250.00
1905 MS (65)	1,825.00
1907 MS (65)	1,825.00
1908 MS (63)	695.00
1909 Proof (67) Superb! 139 struck in the lovely "Roman Gold" finish. An amazing coin with no "shiny spots" or other detractors so common to Matte Proof Quarter Eagles. Rare.	11,750.00
1911 MS (65)	1,975.00
1911-D MS (65) Bright orange gold. A diagnostically correct example of this key date. (see color photo)	7,750.00
1913 MS (63)	690.00

THREE DOLLAR GOLD

1854-O AU (50) Semiprooflike. Handsome green-gold with vague hints of copper at the peripheries. An excellent strike with a full date and sharp mintmark. Scarce.	2,400.00
1855 MS (60) Choice color and surfaces.	2,100.00
1870 MS (63) Pinkish-green toning gives this coin a distinctively Eliasbergian flair. Very choice for the grade and nicer than the example in our last catalog. (see color photo)	4,125.00
1871 MS (63) Deep copper toning. A bit weak at 18; otherwise very sharp with an obverse wire rim. Scarce.	4,500.00
1874 MS (63) Fully prooflike. A curious coin. While the reverse shows all the diagnostic criteria of a Proof, the date position indicates that this is a business strike. This is the sort of one that Max Mehl called a "one-sided Proof." However, serious claims to the above could be made for this coin. As it stands, we will be content to sell this as one of the flashier 1874 business strike Threes around.	3,850.00
1878 MS (65) Luxuriant satin surfaces graced by peripheral rings of pink. An outstanding type coin.	9,000.00
1879 MS (65) Fully prooflike. A flashy full cameo which, at first glance, looks like a Proof. Some light marks are present but these are (rather unfairly) amplified by the depths of the field. Scarce. (see color photo)	10,750.00
1882 Proof (67) Superb! Breen-1; only 76 struck. An astonishingly beautiful full cameo which is completely free of the usual cloudiness and/or extensive hairlines. Proof Threes of this quality have become all but unavailable. The new owner of this coin can rightfully state that he/she possesses the finest quality Proof Three. (see color photo)	17,500.00
1886 Proof (65) 142 struck. Absolutely magnificent obverse with full cameo contrast; choice reverse with a few light black spots present. For some unknown reason, many 1886 Proof Threes have similar deposits. A rare coin.	13,000.00
1889 MS (60)	2,200.00

FOUR DOLLAR GOLD (STELLA)

1879 Proof (65) Flowing Hair. One of 415 originals struck in 1879. Fully brilliant with glittering deep gold surfaces. An excellent strike with the centers quite gold. One tiny test mark at 12:00 on the reverse; otherwise, this is a very clean coin. One of the most legendary of all U.S. coins and; possibly, the most fervently desired U.S. gold type. We have not handled a Stella in over a year, thus we take great pride in offering this splendid rarity.	47,500.00
---	-----------

HALF EAGLES

1803 1/2 MS (63) Breen 1-C. (High R-4). Perfect dies. Lustrous green-gold. Very sharply struck for the date with the centers showing far more detail than usual. The only weak area is the left talon. One minute reverse rim bump above ST will never again be mentioned in a description about this coin. (see color photo)	14,500.00
---	-----------

1805 MS (65) Breen 3-B. (R-6). Close Date, perfect 1. Extremely late die state with a terminal obverse arc crack from 9:00 across the bust to 4:00 and another from 6:00 up through Ms. Liberty to 12:00. Additionally, the dies had clashed and were heavily rusted. Amazingly, this is a nice coin with strong luster and a decent strike. The deep gold color is accentuated by copper splashes within the stars. This coin conceivably could have been the last struck in 1805. An important opportunity. (see color photo)

1806 AU (58)/MS (60) Breen 2-B. (R-6). Pointed 6, Stars 8+5. Imperfect 1, closest date. Green gold with virtually full luster present. Far sharper than usual for the date with full hair and a bold eagle's head. The strange grade we have given this coin is the result of some minor obverse cabinet friction. The reverse, as indicated, is fully Mint State. A rare variety and a scarce date; this is the toughest Heraldic Half Eagle in the 1799-1807 run. (see color photo)	23,500.00
1806 MS (63) Breen 5-C. (R-2). Knobbed 6; Stars 7+6. Perfect, lightly clashed dies. Attractive orange gold with much of the original luster present atop unusually clean surfaces. The strike is, for the date and type, very sharp with excellent hair detail, bold stars and a strong eagle. While not as rare a coin as the Pointed 6, this is probably a more suitable piece for type purposes. (see color photo)	14,500.00

Splendid 1811 Half Eagle

1811 MS (67) Superb! Breen 1-A. Tall 5. (R-4). Perfect dies. Struck in deep yellow gold with even green toning. Blazing luster adheres to the problem-free surfaces. However, it is the strike which stands out. Every individual strand of hair is readily distinct as is every feather on the eagle. Aesthetically, this is one of the prettiest Early Half Eagles this writer has seen. (see color photo)	27,500.00
--	-----------

1843 MS (63) Yellow and green; the reverse is more vivid than the obverse. Generally a clean coin with no major marks. Ex Eliasberg; 425 with flip. A chance to own an affordable coin from the most legendary of all Gold coin collections.	2,550.00
1853 AU (50) Breen-5. Long break from date the star five. An extremely rare variety.	345.00
1855-C MS (63) Somewhat dark, matte-like surfaces from exposure to sea-water. Far choicer than the "typical" seawater Unc. with no abrasions or resultant loss of detail. Scarce. (see color photo)	2,450.00
1857 MS (65) Breen-2. Recut 85. Semiprooflike. Light coppery-orange toning is a bit more intense on the reverse than the obverse. An excellent strike and reasonably clean surfaces give this coin considerable eye appeal. A rare date especially in this grade; of the 20 or so Uncs. which have sold at auction since the 1940's, only a handful approached the choice level. (see color photo)	9,250.00

1890 AU (50) Semiprooflike. With Mint State coins at least a high R-7 (if not an R-8) this represents the finest offering since the 1978 ANA coin. An important coin for the specialist.	1,150.00

EAGLES

Incredible Early Eagle

1799 MS (65) Breen 4-E. The Irregular Date variety. Prooflike with partial cameo contrast on the obverse. Yellow gold with greenish tendencies on the reverse. An early strike with no clashing or die rust and sharp details on both the obverse and reverse. This lovely coin is absolutely problem free and probably impossible to find better. (see color photo)	33,500.00
--	-----------

1800 MS (63) Breen 1-A. Prooflike. Struck in lovely even yellow gold. Well centered and sharp with no adjustment marks or rim problems. Visually, this is as attractive an Early Eagle as we've seen. A very scarce and underrated date.	21,750.00
1803 MS (65) Breen 1-A. Struck from lightly clashed dies. Yellow and green gold with dramatic luster atop choice surfaces. This rivals the mind-boggling 1801 Eagle we sold three months ago. A most important opportunity for the advanced type collector.	33,500.00
1851-O MS (63) Breen-2. High date, hollow center punch within shield. Semiprooflike. Breath-taking deep yellow gold shows very few marks. Our research indicates that this is the second finest known example trailing only the mind-boggling Eliasberg; 688.	5,750.00
1886 MS (63)	765.00
1891 MS (63) Delicate pinkish-gold atop lustrous surfaces. Relatively clean for the date; most are abraded to the point of loss of detail. A very scarce and underrated date.	1,500.00
1899 MS (63)	765.00
1900 MS (65)	3,125.00
1900-S MS (63) Vibrant deep orange-gold with radiant luster. An excellent strike and surfaces give this coin legitimate claims to a higher grade. One of the most underrated of all Eagles in Mint State; the Clapp/Eliasberg wonder coin represented the only other Unc. to be sold in years.	1,250.00

1914 MS (65)	3,625.00

Eagles (cont'd)

1914 Proof (67) Superb! Only 50 struck in the magnificent "coarse sandblast" finish peculiar to 1914 Gold Proofs. The surfaces of this coin are amazing with absolutely no shiny spots or contact marks present. An extreme rarity with most of the few sales records in the past two decades occurring in the great sales.	24,750.00
1914-S MS (65) Sharply struck and lustrous with surfaces far choicer than usual for the issue. Very scarce and unobtainable any finer.	8,350.00

DOUBLE EAGLES

1873 MS (63) Open 3. Not an especially tough date but ideal for the type collector for deployment as a choice Type Two Double Eagle.	1,250.00
1883-S MS (60) Pink and gold. Fully struck and very choice for the grade.	650.00
1883-S MS (63) A visual twin to the last; this has fewer marks and deeper luster.	900.00
1884-S MS (63) Fully prooflike. A sensational first strike which is both razor sharp and, for the date, quite clean.	1,075.00
1885-S MS (65) Exquisite pink and gold toning. Very well struck with few abrasions present. Scarce in this grade.	2,875.00
1887-S MS (63) Deep orange-green toning. Again, fully struck and clean for the issue. This is one of the scarcer San Francisco Double Eagles of the 1880's.	975.00
1890 MS (65) Glittering satin surfaces display few marks and pink centers. While this date is quite scarce in grades up to MS (63), examples of this quality are legitimately rare. (see color photo)	3,450.00
1890-CC MS (60) One of the choicest MS (60) Double Eagles imaginable. Fresh from Europe, this popular coin is colorful and clean.	925.00

1891-S MS (65) Fully struck. Outstanding green and orange toning atop unusually choice surfaces.	2,500.00
1892-S MS (63) Fully struck. Bold luster and very clean surfaces.	975.00
1892-S MS (65) Fully struck. Virtually at the superb level; only an abrasion opposite stars one and two forces us to assign a 65 grade.	2,875.00
1894-S MS (63) Yet another choice coin from Europe. This is very well struck with deep luster and an extremely clean reverse.	975.00
1895 MS (65)	2,275.00
1895-S MS (65) At current levels, these S-Mint Double Eagles seem to be underpriced in regard to their Philadelphia cousins.	2,275.00

1897 MS (63) Fully prooflike. Flashy!	975.00
1898-S MS (63)	975.00

1899-S MS (65) A clone to the Gem 1898-S; this is even more sharply struck.	2,500.00
1900 MS (65)	2,275.00
1900-S MS (67) Superb! Prooflike. This Double Eagle possesses the nicest color we've seen on a gold coin in some time. The centers are a vivid coppery-yellow while the peripheries display a light green hue. The surfaces are incredibly clean and the strike is remarkably bold. On eye appeal alone, this coin justifies its advance notices.	9,750.00

PATTERNS

1851 MS (60) Judd-127. The famous "Ring Cent" Billon. P.E. Perforated original. (R-6). This curious design was not adopted due to the great difficulties inherent in its manufacture. Our coin is a bit dark but is basically as struck.	995.00
1859 Proof (65) Judd-242. The Longacre Half Dollar with the so-called "cereal wreath" reverse. Copper. R.E. (R-4). Full red with minor mellowing on the high spots. Far choicer than usual for this attractive design. (see color photo)	3,450.00
1859 Proof (67) J-240. The Longacre obverse coupled with the Cereal Wreath reverse. Copper. R.E. (R-4). Mottled brassy-brown with a dramatic obverse knife-edge.	1,750.00

1863 Proof (65) J-299. The experimental Indian Cent with no L on ribbon. Bronze. P.E. Dies aligned upwards. (R-1). Struck on a thicker planchet than usually seen. A beautiful coin with wood-grained mahogany surfaces.	1,750.00
1869 Proof (65) J-699. STANDARD SILVER Dime in Copper; three stars on cap. P.E. (R-6 in Judd but R-7 in our experience.) Fiery red obverse; vibrant brick red and brown reverse. An underrated design.	1,750.00
1870 Proof (67) J-815. The beautiful Barber Seated Liberty obverse with regular die reverse. Silver. R.E. A Gem original piece with deep rose-gold surfaces displaying golden-green iridescence below. The beauty of its design and level of preservation make this a special pattern. (see color photo)	3,950.00
1870 Proof (65) J-837. STANDARD SILVER Dime in Silver. Three stars on cap; cotton and corn wreath. R.E. (R-6). Fully brilliant with light rose-gold toning. This and the next would make a fantastic display pair.	1,450.00
1870 Proof (67) Superb! J-838. STANDARD SILVER Dime in Silver. Three stars on cap; cotton and corn wreath. P.E. (R-6). Fully brilliant surfaces show no marks save for the die engraver's lines.	1,950.00
1879 Proof (63) J-1626. Barber's Goloid Metric Dollar in Goloid. R.E. 13.89 grams. (R-6). Lightly hairlined but still brilliant. Autumn-leaves iridescence at the peripheries serves as excellent contrast to the untoned centers. The most desirable issue of this design due to its being struck in the experimental metal Goloid.	1,950.00
1882 Proof (65) J-1690. The celebrated Transitional Nickel; regular dies of 1883. Nickel. P.E. (High R-6). Fully brilliant with a vague dash of golden-grey color. Nice obverse contrast. No planchet problems to speak of. In great demand with collectors and of obvious importance.	12,500.00

Sharply struck with none of the oft-seen weakness at the top of the 1. While not an especially rare type, Bechtler One's of this quality are legitimately scarce. (see color photo)	4,500.00
1861 AU (55) Clark, Gruber and Company Half Eagle. Kagit-6. (R-4). Perfect dies. Fully lustrous deep yellow gold. Typical reverse striking weakness at the type of the shield. A clean piece with just a trace of rub on the cheek and forecurls. (see color photo)	6,950.00

And in today's faster moving coin market, with short supplies of quality items, the problem of ordering the coin "first" will only worsen.

Now you can be sure.

Since your satisfaction and enjoyment in numismatics is our number one goal, we've developed a new method of buying coins so that you can be sure of buying the coin you want.

Our new Assured Delivery Program allows you to purchase any of the Assured Delivery coins and have that coin shipped to you within 30 days after receipt of your paid order.

And, so that you can keep your money working, your check will not be deposited into our bank until we've filled your order. This is especially helpful for you today because of the availability of interest bearing checking accounts.

A program tested and proven.

During the coin rush from 1977-1980, many of our customers experienced the "sorry, sold out" problem. In an attempt to satisfy the rising demand for coins, we privately tested the Assured Delivery concept with a few of our customers.

The result was that within a two week period after receipt of the customer's order, over 80% of the coins were either already available or had flowed into our inventory and were immediately shipped to their new owners. Of the remaining 20% of the orders, almost all of the coins were discovered in the market within 30 days, as our buyers frantically searched at major coin shows and auctions.

Now, Steve Ivy Rare Coins has the largest selection of coins in the world, and we feel that almost all of the requests for Assured Delivery

coins can be filled immediately.

Your assurance with our pledge.

By ordering through the Assured Delivery Program, the fulfillment of your coin need becomes our top priority. Here is our six point pledge to you:

1. We pledge to complete your order first if the coins are currently in stock.
2. We pledge to instruct our buyers to concentrate on locating your coins in the current market.
3. We pledge to assign priority to your order above all want lists.
4. We pledge to deposit your check only when your coins are shipped.
5. We pledge to provide you with the same guarantees of quality and of authenticity, and with identical privileges as a buyer on any normal order.
6. We pledge to ship your coins within 30 days after receipt of your order.

Because we are so sure that you will receive your Assured Delivery coins as pledged, we make the following promise:

Miscellaneous Musings on Proof Gold

by Doug Winter

★ ★ ★ ★ ★ ★ ★

In 1982, I was privileged to catalog thirty or so pieces of Proof Gold. I quickly became infatuated with the aesthetics of these glittering "meistercoins." Put on the barest level of analogy, Proof Gold is truly the caviar of Numismatics.

It is still open to debate as to when the first Proof Gold coins were struck. Certain 1795 Half Eagles and Eagles exist which are obvious presentation pieces; of the wonderful pair owned by Ed Milas and the awesome Eckfeldt/Smithsonian Eagle.

The first issue which I would consider a legitimate Proof is the 1820 Half Eagle. The Melish Sale of 1956 contained all three varieties (Square-base 2 with large letters, Curved-base 2 with large letters and Curved-base 2 with small letters). Colonel Green is said to have owned at least two of the varieties.

Public production of Proofs began in 1858. Proof coins quickly became a fad and production figures followed suit. Gold coins, especially in the larger denominations, did not receive the attention of their nickel, silver and copper counterparts. Obviously cost was a major factor. When one considers that the average monthly income for a middle-class worker in, say, the 1870's was approximately \$20-\$30 a month, few people could afford to buy Proof Double Eagles. Only One Dollar Gold Proofs, which were speculated on like 1950-D nickel rolls would someday be, were minted in quantities of over 1,000.

The vast realm of Gold Proofs encompasses some of the great rarities in American numismatics. The 1875 Three Dollar, 1875 Half Eagle, 1887 Half Eagle, 1875 Eagle and the Double Eagles of 1883, 1884 and 1887 are legitimate rarities which may not be offered publicly for years at a time.

Obviously, not all Gold Proofs are of this magnitude. Proof Ones are certainly affordable as are "common date" Liberty Quarter Eagles. Threes, Half Eagles, Eagles and Double Eagles are rare and cost much the same as a new Cadillac.

I have been asked that, given the proper circumstances, how would I collect Proof Gold. To be honest, if my budget was unlimited, I'd buy a castle in Ireland and live happily ever after. My coin scheme would begin with the assembling of a basic ten coin type set with a Stella as a possible addition. My next goal would be a "mode of manufacture" set. This group would consist of an early Proof (struck in an open collar), a piece from the 1850-1890 era (close collar with cameoed head against brilliant contrasting fields) another from the 1890-1907 era (brilliant but with no contrast) and, finally, a set of the various experimental finishes of 1908-1916 (light Matte, dark Matte, Roman Gold, sandblast and satin). The Matte Set would represent a formidable challenge but its completion would be the envy of any numismatist.

Proof Gold will continue to make goosebumps rise to Himalayan proportions on the necks of even the most advanced numismatist. If I am able to; in 1983, catalog even half the amount of Proof Gold I did in 1982, I will be content. I may never own a Proof Twenty but my mouth will continue to drop and my heart will continue to flutter rapidly every time I see one.
